

ALTRO MARINE 20 For Wet Area

The original safety floor for wet areas now has a fresh new look. We've introduced a refreshing colour palette with a homely, comfortable feel. This carefully textured 2mm thick safety floor is specifically designed for safety with wet, bare feet or soft-soled footwear. It is ideal for recreational wet areas, as well as associated changing rooms. For a seamless appearance, colour matched weldrods and mastics are available. • Incorporates bacteriostat for enhanced hygiene.

Tide - IPT20808

Steam- IPT20807

Ripple - IT20803

Life expectancy guide:
15 years

Slip potential ≥ 36 :
Low

Recommended service temperature:
-20°C - 60°C

Chemical Resistance @ 20°C:
High

Thickness:
2000 Microns

Impact Resistance @ 20°C:
Good

Cigarette burn resistance:
Poor

Hygiene:
Good

Fire tests:
EN13501-1

Format availability/ application method:
Roll, Sheet

Slip potential ≥ 36 :
Low

Sound absorption:
Good

Ease of Cleaning:
Moderate

Skirtings & wall finish compatability:
Skirting, Self Covered Skirting, Roll/Sheet

Wear characteristics:
General Commercial, Light Industrial
